MAP MEASURER PATH

- Analog display – analog interface with 8 scales
- Scales – 1:15.000, 1:25.000, 1:50.000, 1:100.000, 1:200.000, 1:400.000 1:500.000 and 1:750.000
- Adds and subtracts distance

MAP MEASURER PATH

A well-planned journey begins in the comfort of your own home and leaves you time to enjoy the trip once you are actually out in the wilderness. With a map measurer your trip can be planned in detail, to avoid surprises on the way. Daily stages linked together with the number of days of the trip, should be equivalent to the distance you want to cover, to reach your goal in time.

ART. NO. 37507

CLINOMETER

- Heeling angle – displays the heeling angle on sailing boats and the power-trim check on powerboats.
- Steady mounting – keeps in place, even in rough conditions
- Easy to read – safe and swift reading so you can set the right course

CLINOMETER

The Silva Clinometer is a popular clinometer for all types of vehicles. It has two scales, one $\pm 35^\circ$ and a fine tuning scale $\pm 5^\circ$. The Silva Clinometer is used for checking the heeling angle on sailing boats and for the power-trim check on powerboats. It is also a perfect working instrument for other applications, such as making sure that different vehicles and equipment sits “level” or keep the desired a angle.

BOAT COMPASSES

STVA

125FTC

COMPASS 125FTC

125FTC is a compass designed for boats and yachtsmen that demand absolute accuracy and a steady card in all conditions and heeling angles. This compass is suitable for all boat tyoes.

ART. NO. 37195-0011

- Flush mount – Flat bottom design for flush installation
- Built-in red illumination – enables night navigation.
- Built-in compensator – deviation compensator so that you always can keep a steady course
- 3 Lubber lines – enables reading from different positions.
- Extended centre needle – eliminates parallax errors.
- Protective cover – protects and prolongs the life of your compass.
- Designed for larger sailboats and power boats.

125FTC (ME)

COMPASS 125FTC ME

125FTC is a compass designed for boats and yachtsmen that demand absolute accuracy and a steady card in all conditions and heeling angles. This compass is suitable for all boat tyoes.

ART. NO. 37195-0013

- Flush mount – Flat bottom design for flush installation
- Built-in red illumination – enables night navigation.
- Built-in compensator – deviation compensator so that you always can keep a steady course
- 3 Lubber lines – enables reading from different positions.
- Extended centre needle – eliminates parallax errors.
- Protective cover – protects and prolongs the life of your compass.
- Designed for larger sailboats and power boats.

125FTC (MS)

COMPASS 125FTC MS

125FTC is a compass designed for boats and yachtsmen that demand absolute accuracy and a steady card in all conditions and heeling angles. This compass is suitable for all boat tyoes.

ART. NO. 37195-0015

- Flush mount – Flat bottom design for flush installation
- Built-in red illumination – enables night navigation.
- Built-in compensator – deviation compensator so that you always can keep a steady course
- 3 Lubber lines – enables reading from different positions.
- Extended centre needle – eliminates parallax errors.
- Protective cover – protects and prolongs the life of your compass.
- Designed for larger sailboats and power boats.

125FTC (24V)

COMPASS 125FTC 24V

125FTC is a compass designed for boats and yachtsmen that demand absolute accuracy and a steady card in all conditions and heeling angles. This compass is suitable for all boat tyoes.

ART. NO. 37195-2411

- Flush mount – Flat bottom design for flush installation
- Built-in red illumination – enables night navigation.
- Built-in compensator – deviation compensator so that you always can keep a steady course
- 3 Lubber lines – enables reading from different positions.
- Extended centre needle – eliminates parallax errors.
- Protective cover – protects and prolongs the life of your compass.
- Designed for larger sailboats and power boats.

125T

COMPASS 125T

The Silva 125T is a pedestal compass designed for larger boats and yachtsmen who demand absolute accuracy and a steady card in all conditions and heeling angles. This compass is suitable for most larger sailing boats and motor yachts and owing to the effective dampening of the compass card, it is the correct choice even for larger speedboats.

ART. NO. 37199-0011

- Built-in red illumination – enables night navigation.
- Compensator – adjust when deviated and always have the correct course
- 2 Lubber lines at 45° for clear reading.
- Extended centre needle – eliminates parallax errors.
- Protective cover – protects and prolongs the life of your compass.
- Mounted on a pedestal.
- Designed for larger sailboats and power boats

125T (ME)

COMPASS 125T ME

The Silva 125T is a pedestal compass designed for larger boats and yachtsmen who demand absolute accuracy and a steady card in all conditions and heeling angles. This compass is suitable for most larger sailing boats and motor yachts and owing to the effective dampening of the compass card, it is the correct choice even for larger speedboats.

ART. NO. 37199-0013

- Built-in red illumination – enables night navigation.
- Compensator – adjust when deviated and always have the correct course
- 2 Lubber lines at 45° for clear reading.
- Extended centre needle – eliminates parallax errors.
- Protective cover – protects and prolongs the life of your compass.
- Mounted on a pedestal.
- Designed for larger sailboats and power boats

125T (MS)

COMPASS 125T MS

The Silva 125T is a pedestal compass designed for larger boats and yachtsmen who demand absolute accuracy and a steady card in all conditions and heeling angles. This compass is suitable for most larger sailing boats and motor yachts and owing to the effective dampening of the compass card, it is the correct choice even for larger speedboats.

ART. NO. 37199-0015

- Built-in red illumination – enables night navigation.
- Compensator – adjust when deviated and always have the correct course
- 2 Lubber lines at 45° for clear reading.
- Extended centre needle – eliminates parallax errors.
- Protective cover – protects and prolongs the life of your compass.
- Mounted on a pedestal.
- Designed for larger sailboats and power boats

125B/H

COMPASS 125B/H

125B/H is a bulkhead-mounted compass designed for sailboats and yachtsmen that demand absolute accuracy, a steady card in all conditions and heeling angles.

ART. NO. 37192-0011

- Built-in illumination that enables night navigation.
- 3 Lubber lines – enables reading from different positions.
- Heeling scale – enables optimizing heeling and speed.
- Designed for sailboats.

125 B/H (ME)

COMPASS 125B/H ME

125B/H is a bulkhead-mounted compass designed for sailboats and yachtsmen that demand absolute accuracy, a steady card in all conditions and heeling angles.

ART. NO. 37192-0013

- Built-in illumination that enables night navigation.
- 3 Lubber lines – enables reading from different positions.
- Heeling scale – enables optimizing heeling and speed.
- Designed for sailboats.

125 B/H (MS)

COMPASS 125B/H MS

125B/H is a bulkhead-mounted compass designed for sailboats and yachtsmen that demand absolute accuracy, a steady card in all conditions and heeling angles.

ART. NO. 37192-0015

- Built-in illumination that enables night navigation.
- 3 Lubber lines – enables reading from different positions.
- Heeling scale – enables optimizing heeling and speed.
- Designed for sailboats.

100NBC/FBC

COMPASS 100NBC/FBC

100NBC/FBC is a marine compass designed for powerboats with multiple mounting options. It has a main steering scale on the horizontal part of the compass rose and direct reading on the vertical edge.

ART. NO. 37180-0151

- Double scales – ideal for sitting or standing helmsman.
- Built-in illumination that enables night navigation.
- Built-in compensator – deviation compensator so that you always can keep a steady course
- 3 Lubber lines – enables reading from different positions.
- Protective cover – protects and prolongs the life of your compass.
- Designed for power boats.
- 2 mounting options – bracket or flush/bulkhead.

100NBC/FBC (ME)

COMPASS 100NBC/FBC ME

100NBC/FBC is a marine compass designed for powerboats with multiple mounting options. It has a main steering scale on the horizontal part of the compass rose and direct reading on the vertical edge.

ART. NO. 37180-0153

- Double scales – ideal for sitting or standing helmsman.
- Built-in illumination that enables night navigation.
- Built-in compensator – deviation compensator so that you always can keep a steady course
- 3 Lubber lines – enables reading from different positions.
- Protective cover – protects and prolongs the life of your compass.
- Designed for power boats.
- 2 mounting options – bracket or flush/bulkhead.

100NBC/FBC (MS)

COMPASS 100NBC/FBC MS

100NBC/FBC is a marine compass designed for powerboats with multiple mounting options. It has a main steering scale on the horizontal part of the compass rose and direct reading on the vertical edge.

ART. NO. 37180-0155

- Double scales – ideal for sitting or standing helmsman.
- Built-in illumination that enables night navigation.
- Built-in compensator – deviation compensator so that you always can keep a steady course
- 3 Lubber lines – enables reading from different positions.
- Protective cover – protects and prolongs the life of your compass.
- Designed for power boats.
- 2 mounting options – bracket or flush/bulkhead.

100BC

COMPASS 100BC

100BC is a front reading marine compass with a solid bracket that enables various mounting alternatives, including on the headlining. It has a main steering scale on the horizontal part of the compass rose and direct reading on the vertical edge. This makes the compass ideal for boats with a sitting as well as a standing helmsman.

ART. NO. 37177-0151

- Double scales – ideal for sitting or standing helmsman.
- Built-in compensator – deviation compensator so that you always can keep a steady course
- Built-in illumination that enables night navigation.
- 3 Lubber lines – enables reading from different positions.
- Various mounting alternatives.

100BC (ME)

COMPASS 100BC ME

100BC is a front reading marine compass with a solid bracket that enables various mounting alternatives, including on the headlining. It has a main steering scale on the horizontal part of the compass rose and direct reading on the vertical edge. This makes the compass ideal for boats with a sitting as well as a standing helmsman.

ART. NO. 37177-0153

- Double scales – ideal for sitting or standing helmsman.
- Built-in compensator – deviation compensator so that you always can keep a steady course
- Built-in illumination that enables night navigation.
- 3 Lubber lines – enables reading from different positions.
- Various mounting alternatives.

100BC (MS)

COMPASS 100BC MS

100BC is a front reading marine compass with a solid bracket that enables various mounting alternatives, including on the headlining. It has a main steering scale on the horizontal part of the compass rose and direct reading on the vertical edge. This makes the compass ideal for boats with a sitting as well as a standing helmsman.

ART. NO. 37177-0155

- Double scales – ideal for sitting or standing helmsman.

- Various mounting alternatives.

100B/H

COMPASS 100B/H

100B/H is a bulkhead-mounted marine compass designed for sailboats when you demand absolute accuracy, a steady card in all conditions and high heeling angles. The sailboat compass 100B/H is equipped with a heeling angel scale, illumination and the possibility to compensate for magnetic field disturbance. The capsule protrudes only 18mm into the cockpit, which enables flexible installation.

ART. NO. 37183-0011

- Built-in illumination that enables night navigation.
- 3 Lubber lines – enables reading from different positions.
- Heeling scale – enables optimizing heeling and speed.
- Designed specifically for sailboats

100B/H (ME)

COMPASS 100B/H ME

100B/H is a bulkhead-mounted marine compass designed for sailboats when you demand absolute accuracy, a steady card in all conditions and high heeling angles. The sailboat compass 100B/H is equipped with a heeling angel scale, illumination and the possibility to compensate for magnetic field disturbance. The capsule protrudes only 18mm into the cockpit, which enables flexible installation.

ART. NO. 37183-0013

- Built-in illumination that enables night navigation.
- 3 Lubber lines – enables reading from different positions.
- Heeling scale – enables optimizing heeling and speed.
- Designed specifically for sailboats

100B/H (MS)

COMPASS 100B/H MS

100B/H is a bulkhead-mounted marine compass designed for sailboats when you demand absolute accuracy, a steady card in all conditions and high heeling angles. The sailboat compass 100B/H is equipped with a heeling angel scale, illumination and the possibility to compensate for magnetic field disturbance. The capsule protrudes only 18mm into the cockpit, which enables flexible installation.

ART. NO. 37183-0015

- Built-in illumination that enables night navigation.
- 3 Lubber lines – enables reading from different positions.
- Heeling scale – enables optimizing heeling and speed.
- Designed specifically for sailboats

100P

COMPASS 100P

100P is a bulkhead-mounted marine compass designed for sailboats and yachtsmen that demand absolute accuracy, a steady card in all conditions and high heeling angles. It is suitable for mast-mounting thanks to front reading, 30° heeling angle and three lubber lines for multi-angle reading. The main steering scale on the horizontal part and direct reading on the vertical edge make the 100P ideal for boats with a sitting as well as a standing helmsman. With its compact size, 100P will fit in most spaces and boats.

ART. NO. 37186-0101

- Double scales – ideal for sitting or standing helmsman.
- 3 Lubber lines – enables reading from different positions.
- Steady card – readable in rough seas.
- Compact size – fits in small spaces and most boats
- Designed specifically for sailboats.

100P (ME)

COMPASS 100P ME

100P is a bulkhead-mounted marine compass designed for sailboats and yachtsmen that demand absolute accuracy, a steady card in all conditions and high heeling angles. It is suitable for mast-mounting thanks to front reading, 30° heeling angle and three lubber lines for multi-angle reading. The main steering scale on the horizontal part and direct reading on the vertical edge make the 100P ideal for boats with a sitting as well as a standing helmsman. With its compact size, 100P will fit in most spaces and boats.

ART. NO. 37186-0103

- Double scales – ideal for sitting or standing helmsman.
- 3 Lubber lines – enables reading from different positions.
- Steady card – readable in rough seas.
- Compact size – fits in small spaces and most boats
- Designed specifically for sailboats.

100P (MS)

COMPASS 100P MS

100P is a bulkhead-mounted marine compass designed for sailboats and yachtsmen that demand absolute accuracy, a steady card in all conditions and high heeling angles. It is suitable for mast-mounting thanks to front reading, 30° heeling angle and three lubber lines for multi-angle reading. The main steering scale on the horizontal part and direct reading on the vertical edge make the 100P ideal for boats with a sitting as well as a standing helmsman. With its compact size, 100P will fit in most spaces and boats.

ART. NO. 37186-0105

- Double scales – ideal for sitting or standing helmsman.
- 3 Lubber lines – enables reading from different positions.
- Steady card – readable in rough seas.
- Compact size – fits in small spaces and most boats
- Designed specifically for sailboats.

100FC

COMPASS 100FC

100FC is a marine compass made for powerboats and sailing boats. It has a narrow design to fit any dashboard. This is the perfect compass for yachtsmen who demand absolute accuracy and a steady reading in all conditions and heeling angles.

ART. NO. 38111

- Double scales – ideal for sitting or standing helmsman.
- Built-in illumination that enables night navigation.
- Perfect compass for yachtsmen who demand absolute accuracy
- Narrow design to fit any dashboard
- Built-in deviation compensator
- 4 Lubber lines – enables reading from different positions.
- Flush mount
- Protective cover – protects and prolongs the life of your compass.
- Included accessories for easy mounting

100FC (ME)

COMPASS 100FC ME

100FC is a marine compass made for powerboats and sailing boats. It has a narrow design to fit any dashboard. This is the perfect compass for yachtsmen who demand absolute accuracy and a steady reading in all conditions and heeling angles.

ART. NO. 38129

- Double scales – ideal for sitting or standing helmsman.
- Built-in illumination that enables night navigation.
- Perfect compass for yachtsmen who demand absolute accuracy
- Narrow design to fit any dashboard
- Built-in deviation compensator
- 4 Lubber lines – enables reading from different positions.
- Flush mount
- Protective cover – protects and prolongs the life of your compass.
- Included accessories for easy mounting

100FC (MS)

COMPASS 100FC MS

100FC is a marine compass made for powerboats and sailing boats. It has a narrow design to fit any dashboard. This is the perfect compass for yachtsmen who demand absolute accuracy and a steady reading in all conditions and heeling angles.

ART. NO. 38128

- Double scales – ideal for sitting or standing helmsman.
- Built-in illumination that enables night navigation.
- Perfect compass for yachtsmen who demand absolute accuracy
- Narrow design to fit any dashboard
- Built-in deviation compensator
- 4 Lubber lines – enables reading from different positions.
- Flush mount
- Protective cover – protects and prolongs the life of your compass.
- Included accessories for easy mounting

COMPASS 100FC WHITE

COMPASS 100FC WHITE

100FC is a marine compass made for powerboats and sailing boats. It has a narrow design to fit any dashboard. This is the perfect compass for yachtsmen who demand absolute accuracy and a steady reading in all conditions and heeling angles.

ART. NO. 38111-0011

- Double scales – ideal for sitting or standing helmsman.
- Built-in illumination that enables night navigation.
- Perfect compass for yachtsmen who demand absolute accuracy
- Narrow design to fit any dashboard
- Built-in deviation compensator
- 4 Lubber lines – enables reading from different positions.
- Flush mount
- Protective cover – protects and prolongs the life of your compass.
- Included accessories for easy mounting

COMPASS 100FC WHITE 24V

COMPASS 100FC WHITE 24V

100FC is a marine compass made for powerboats and sailing boats. It has a narrow design to fit any dashboard. This is the perfect compass for yachtsmen who demand absolute accuracy and a steady reading in all conditions and heeling angles.

ART. NO. 38111-0015

- Double scales – ideal for sitting or standing helmsman.
- Built-in illumination that enables night navigation.
- Perfect compass for yachtsmen who demand absolute accuracy
- Narrow design to fit any dashboard
- Built-in deviation compensator
- 4 Lubber lines – enables reading from different positions.
- Flush mount
- Protective cover – protects and prolongs the life of your compass.
- Included accessories for easy mounting

COMPASS 100FC 24V

COMPASS 100FC 24V

100FC is a marine compass made for powerboats and sailing boats. It has a narrow design to fit any dashboard. This is the perfect compass for yachtsmen who demand absolute accuracy and a steady reading in all conditions and heeling angles.

ART. NO. 38111-0024

- Double scales – ideal for sitting or standing helmsman.
- Built-in illumination that enables night navigation.
- Perfect compass for yachtsmen who demand absolute accuracy
- Narrow design to fit any dashboard
- Built-in deviation compensator

102B/H

COMPASS 102B/H

102B/H is a high stability, bulkhead-mounted compass designed for sailboats and yachtsmen that demand absolute accuracy, a steady card in all conditions and heeling angles. This compass issuitable for sailing boats, motor sailing vessels and larger motor yachts. The compass permits up to 45° heeling and unlimited tilting fore and aft. 102B/H has a 100 mm capsule, gimballed cradle and direct reading scale on the vertical edge.

ART. NO. 37198-0011

- Built-in red illumination – enables night navigation.
- 3 Lubber lines – enables reading from different positions.
- Heeling scale – enables optimizing of heeling and speed.
- Protective cover – protects and prolongs the life of your compass.
- Suitable for most boat types.

102B/H (ME)

COMPASS 102B/H ME

102B/H is a high stability, bulkhead-mounted compass designed for sailboats and yachtsmen that demand absolute accuracy, a steady card in all conditions and heeling angles. This compass issuitable for sailing boats, motor sailing vessels and larger motor yachts. The compass permits up to 45° heeling and unlimited tilting fore and aft. 102B/H has a 100 mm capsule, gimballed cradle and direct reading scale on the vertical edge.

ART. NO. 37198-0013

- Built-in red illumination – enables night navigation.
- 3 Lubber lines – enables reading from different positions.
- Heeling scale – enables optimizing of heeling and speed.
- Protective cover – protects and prolongs the life of your compass.
- Suitable for most boat types.

102B/H (MS)

COMPASS 102B/H MS

102B/H is a high stability, bulkhead-mounted compass designed for sailboats and yachtsmen that demand absolute accuracy, a steady card in all conditions and heeling angles. This compass issuitable for sailing boats, motor sailing vessels and larger motor yachts. The compass permits up to 45° heeling and unlimited tilting fore and aft. 102B/H has a 100 mm capsule, gimballed cradle and direct reading scale on the vertical edge.

ART. NO. 37198-0015

- Built-in red illumination – enables night navigation.
- 3 Lubber lines – enables reading from different positions.
- Heeling scale – enables optimizing of heeling and speed.
- Protective cover – protects and prolongs the life of your compass.
- Suitable for most boat types.

70NBC/FBC

COMPASS 70NBC/FBC

70NBC/FBC is a marine compass for yachtsmen relying on exceptional stability in all conditions and at all speed. It comes with two different mounting options and is ideal for boats with a sitting as well as standing helmsman.

ART. NO. 37168-0151

- Double scales – ideal for sitting or standing helmsman.
- Built-in compensator – deviation compensator so that you always can keep a steady course
- Built-in illumination that enables night navigation.
- Protective cover – protects and prolongs the life of your compass.
- Stable compass that tolerate any weather and rougher conditions.
- 2 mounting options – bracket or flush/bulkhead, fits most boats.
- Unlimited tilting fore and aft, 30° when heeling
- Front and back yellow main lubber line

70NBC/FBC (ME)

COMPASS 70NBC/FBC ME

70NBC/FBC is a marine compass for yachtsmen relying on exceptional stability in all conditions and at all speed. It comes with two different mounting options and is ideal for boats with a sitting as well as standing helmsman.

ART. NO. 37168-0153

- Double scales – ideal for sitting or standing helmsman.
- Built-in compensator – deviation compensator so that you always can keep a steady course
- Built-in illumination that enables night navigation.
- Protective cover – protects and prolongs the life of your compass.
- Stable compass that tolerate any weather and rougher conditions.
- 2 mounting options – bracket or flush/bulkhead, fits most boats.
- Unlimited tilting fore and aft, 30° when heeling
- Front and back yellow main lubber line

COMPASS 70NBC/FBC MS

70NBC/FBC is a marine compass for yachtsmen relying on exceptional stability in all conditions and at all speed. It comes with two different mounting options and is ideal for boats with a sitting as well as standing helmsman.

ART. NO. 37168-0155

- Double scales – ideal for sitting or standing helmsman.
- Built-in compensator – deviation compensator so that you always can keep a steady course
- Built-in illumination that enables night navigation.
- Protective cover – protects and prolongs the life of your compass.
- Stable compass that tolerate any weather and rougher conditions.
- 2 mounting options – bracket or flush/bulkhead, fits most boats.
- Unlimited tilting fore and aft, 30° when heeling
- Front and back yellow main lubber line

70UNE

COMPASS 70UNE

70UNE is a universal compass that can be used in its bracket as a steering compass or as a handheld sighting compass. If dropped in the sea, it floats! This compass is suitable for small boats, kayaks, dinghies, canoes and more. This boat compass can be installed in any inclination or position – even upside down. It is easily detached from the bracket to enable temporary sighting use or for security purposes. 70UNE comes with a waterproof switch and built-in illumination, powered by two watch batteries, that makes it ideal for night navigation.

ART. NO. 35014-1191

- Built-in illumination that enables night navigation.
- Double scales – ideal for sitting or standing helmsman.
- Multiple mounting possibilities – adaptable to the available space.
- Smart bracket – easily attached or detached
- Use as steering or sighting compass
- Curved lubber line – accurate reading without parallax errors.
- Floatable – don't worry about dropping it in the sea.
- Large digits – great when kayaking or canoeing

70UNE (ME)

COMPASS 70UNE ME

70UNE is a universal compass that can be used in its bracket as a steering compass or as a handheld sighting compass. If dropped in the sea, it floats! This compass is suitable for small boats, kayaks, dinghies, canoes and more. This boat compass can be installed in any inclination or position – even upside down. It is easily detached from the bracket to enable temporary sighting use or for security purposes. 70UNE comes with a waterproof switch and built-in illumination, powered by two watch batteries, that makes it ideal for night navigation.

ART. NO. 35014-1193

- Built-in illumination that enables night navigation.
- Double scales – ideal for sitting or standing helmsman.
- Multiple mounting possibilities – adaptable to the available space.
- Smart bracket – easily attached or detached
- Use as steering or sighting compass
- Curved lubber line – accurate reading without parallax errors.
- Floatable – don't worry about dropping it in the sea.
- Large digits – great when kayaking or canoeing

It is easily detached from the bracket to enable temporary sighting use or for security purposes. 70UNE comes with a waterproof switch and built-in illumination, powered by two watch batteries, that makes it ideal for night navigation.

ART. NO. 35014-1195

- Built-in illumination that enables night navigation.
- Double scales – ideal for sitting or standing helmsman.
- Multiple mounting possibilities – adaptable to the available space.
- Smart bracket – easily attached or detached
- Use as steering or sighting compass
- Curved lubber line – accurate reading without parallax errors.
- Floatable – don't worry about dropping it in the sea.
- Large digits – great when kayaking or canoeing

70P

COMPASS 70P SILVA

70P is a bulkhead mount boat compass designed for smaller boats that gives you absolute accuracy and a steady card in all conditions. The compass handles unlimited slope of the keel line and a 30° heeling angle. The curved lubber line enables swift and clear reading at a glance without parallax errors. With a main steering scale on the horizontal part and direct reading on the vertical edge.

ART. NO. 34990-9011

- Double scales – ideal for sitting or standing helmsman.
- Compact design – suitable for smaller boats.
- Steady card – readable in rough seas.
- Curved lubber line – accurate reading without parallax errors.

70P (ME)

COMPASS 70P SILVA ME

70P is a bulkhead mount boat compass designed for smaller boats that gives you absolute accuracy and a steady card in all conditions. The compass handles unlimited slope of the keel line and a 30° heeling angle. The curved lubber line enables swift and clear reading at a glance without parallax errors. With a main steering scale on the horizontal part and direct reading on the vertical edge.

ART. NO. 34990-9013

- Double scales – ideal for sitting or standing helmsman.
- Compact design – suitable for smaller boats.
- Steady card – readable in rough seas.
- Curved lubber line – accurate reading without parallax errors.

70UN

COMPASS 70UN

70UN is a universal compass that can be used in its bracket as a steering compass or as a handheld sighting compass. This marine compass can be installed in any inclination or position, even upside down. It is easily detached from the bracket to enable temporary sighting use or for security purposes. With a main steering scale on the horizontal part and direct reading on the vertical edge.

ART. NO. 35014-9011

- Double scales – ideal for sitting or standing helmsman.
- Multiple mounting possibilities – adaptable to the available space.
- Smart bracket – easily attached or detached.
- Use as steering or sighting compass
- Curved lubber line – accurate reading without parallax errors.
- Floatable – don't worry about dropping it in the sea.
- Large digits – great when kayaking or canoeing

HEADLAMPS

SILVA

LR2000RC

HEADLAMP LR2000RC

LR2000 RC is the most powerful headlamp from Silva, combined with a rechargeable 7.0 Ah battery. The battery is powerful, yet slim enough, to be comfortably attached to the headband with the included battery holder. This headlamp is the perfect choice for professionals that require long reach spotlight and extremely bright light.

ART. NO. 38073

- 2000 True lumen light output.
- Boost-mode (2300 lm) – for extra powerful light when better vision is required
- Powerful USB-C Rechargeable 7.0Ah battery
- Comfortable fit – thanks to the wide anti-slip headband.
- Battery holder for headband – keeps the battery in place and improves the comfort
- Silva Intelligent Light, combining long reach spot light and close flood light.
- Silva Flow Light, vary the light pattern depending on your activity.
- Battery level indicator.
- Silva Connection System, enables use of any Silva Li-Ion battery post 2008.
- Super-low mode (80 lm) to maximize burn time.
- Reserve mode that ensures at least another 30 minutes of use.
- Water & dust resistant: The headlamps meets the IPX5 standard.
- Large on/off button – easy to operate while wearing gloves.

LR1200RC

HEADLAMP LR1200RC

LR1200 RC is a powerful, nimble, and lightweight headlamp, combined with a rechargeable 3.5Ah battery. The battery is powerful, yet slim enough, to be comfortably attached to the headband with the included battery holder. This headlamp is the perfect choice for professionals that require long reach spotlight, extensive burn time, and lightweight gear.

ART. NO. 38074

- 1200 True lumen light output.
- USB-C Rechargeable 2.0Ah lightweight battery
- Comfortable fit – thanks to the wide anti-slip headband.
- Silva Intelligent Light, combining long reach spot light and close flood light.
- Silva Flow Light, vary the light pattern depending on your activity.
- Battery level indicator.
- Silva Connection System, enables use of any Silva Li-Ion battery post 2008.
- Super-low mode (80 Lumen) to maximize burn time.
- Reserve mode that ensures at least another 30 minutes of use.
- Water & dust resistant: The headlamps meets the IPX5 standard.
- Large on/off button – easy to operate while wearing gloves.

LR600RC

HEADLAMP LR 600RC

LR600 RC is a modular and flexible headlamp that comes with accessories for different attachment options and a slim 2.0Ah battery. The headlamp can be shifted between the headband and a helmet thanks to the included accessories, and the battery can be attached to the headband with the included battery holder or kept in a pocket with the battery extension cord. This headlamp is the perfect choice for professionals that require a flexible, all-round headlamp.

ART. NO. 38068

- 600 True lumen light output.
- USB-C Rechargeable 2.0Ah lightweight battery
- Lightweight comfortable fit, thanks to low weight and wide anti-slip headband.
- Silva Intelligent Light, combining long reach spot light and close flood light.
- Silva Flow Light, vary the light pattern depending on your activity.
- Battery level indicator.
- Silva Connection System, enables use of any Silva Li-Ion battery post 2008.
- 3x attachments for easy adaption to several work challenges.
- Helmet battery sticker – for placing battery holder on back of work helmet
- Super-low mode (10 Lumen).
- Water & dust resistant: The headlamps meets the IPX5 standard.
- Large on/off button – easy to operate while wearing gloves.

MR400 RC

HEADLAMP MR 400RC

MR400 RC is a robust and fully waterproof headlamp with rechargeable batteries integrated into the headlamp housing. This headlamp features 3 light modes which can be adapted to the work tasks you perform and in addition to white light, this model also features red light to preserve night vision, and orange light which is optimal for reading instructions and maps. The included helmet bracket is designed to fit most helmets thanks to its unique “star-shaped” attachment points and this headlamp is the perfect choice for professionals that require a robust and waterproof headlamp for frequent use.

ART. NO. 38070

- 400 lumen light output.
- Integrated 0.7Ah USB rechargeable battery – USB cable included.
- Lightweight and comfortable, perfect for medium range work.
- Silva Intelligent Light, combining long reach spot light and close flood light.
- Night vision & map reading mode, the red light preserves your night vision and the orange light is optimal for reading maps and instructions.
- Battery level indicator.
- Fully waterproof: Meets the IPX7 standard.
- Super-low mode (10 Lumen).
- Flexible helmet bracket included.
- SOS Blink mode.
- Large on/off button – easy to operate while wearing gloves.

MR400

- 400 lumen light output.
- 3xAAA batteries included.
- Lightweight and comfortable, perfect for medium range work.
- Silva Intelligent Light, combining long reach spot light and close flood light.
- Night vision & map reading mode, the red light preserves your night vision and the orange light is optimal for reading maps and instructions.
- Battery level indicator.
- Fully waterproof: Meets the IPX7 standard.
- Super-low mode (10 Lumen).
- Flexible helmet bracket included.
- SOS Blink mode.
- Large on/off button – easy to operate while wearing gloves.

HEADLAMP MR 400

MR400 is a robust and fully waterproof headlamp (IPX 7) with AAA-batteries integrated into the headlamp housing. This headlamp features 3 light modes which can be adapted to the work tasks you perform, an in addition to white light, this model also features red light to preserve night vision, and orange light which is optimal for reading instructions and maps. ART. NO. 38071

MR200

- 200 lumen light output.
- 3xAAA batteries included.
- Lightweight and comfortable, perfect for medium range work indoors.
- Silva Intelligent Light, combining long reach spot light and close flood light.
- Battery level indicator.
- Fully waterproof: Meets the IPX7 standard.
- Flexible helmet bracket included.
- Large on/off button – easy to operate while wearing gloves.

HEADLAMP MR200

MR200 is a robust and fully waterproof headlamp with extensive burn time and one LED-source which makes it optimal for close range work and for indoor use. This headlamp features 3 light modes which can be adapted to the work tasks you perform, and it comes with a combined helmet/belt clip. This headlamp is the perfect choice for professionals who often work indoors in the dark.

ART. NO. 38002

CR230

HEADLAMP CR230

CR230 is a lightweight and easy-to-use headlamp with batteries integrated in the headlamp housing. This model features Hybrid Technology which means that the battery compartment is compatible with both the included AAA-batteries and the rechargeable Silva Hybrid Battery (1.25 Ah) which can be bought separately. This headlamp is the perfect choice for professionals who require a flexible and easy-to-use headlamp for occasional use.

ART. NO. 38001

- 230 lumen light output.
- 3xAAA batteries included – long burntime.
- Hybrid technology: compatible with a rechargeable hybrid battery and 3xAAA standard batteries.
- Silva Intelligent Light, combining long reach spot light and close flood light.
- Comfortable fit – thanks to low weight and the wide anti-slip headband.
- Water resistant: Meets the IPX5 standard.

LIGHTING

ACCESSORIES

SLV

HEADLAMP BATTERY 10.5AH

- 10.5Ah extra powerful long-distance battery.
- Weight: 330g
- Fits Exceed, Trail Speed, Cross Trail & LR-series
- Silva rectangular connection, enables use with any Silva headlamp post 2008
- 5-step battery indication
- Compatible with Velcro Strap, Headlamp Extension Kit, Headlamp Battery Charger and USB Charge Adapter
- Water resistant - meets the IPX5 requirements

HEADLAMP BATTERY 10.5AH (77.7WH)

Headlamp Battery 10.5Ah (77.7Wh) is the most powerful long-distance battery in the Silva battery range. It is rechargeable via USB-C and can be attached to a bike frame, handlebar or similar with the Battery Velcro Strap (sold separately). This battery fits headlamps in the series Exceed, Trail Speed, Cross Trail and LR.

ART. NO. 37999

HEADLAMP BATTERY 7.0AH

- 7.0Ah powerful lightweight battery
- Weight: 235g
- Fits Exceed, Trail Speed, Cross Trail, LR2000 RC, LR1200 RC & LR600 RC
- Silva rectangular connection, enables use of any Silva Li-Ion battery post 2008
- 5-step battery indication
- Compatible with Velcro Strap, Headlamp Extension Kit, Headlamp Battery Charger and USB Charge Adapter
- Water resistant, meets the IPX5 requirements

HEADLAMP BATTERY 7.0AH (51.8WH)

Headlamp Battery 7.0Ah (51.8Wh) is a powerful battery. It is rechargeable via USB-C and can be attached to a bike frame, handlebar or similar with the Battery Velcro Strap (sold separately). It can also be attached to your headband using the Battery Holder 7.0. This battery fits headlamps in the series Exceed, Trail Speed, Cross Trail and LR.

ART. NO. 37998

HEADLAMP BATTERY 3.5AH

- 3.5Ah slim & lightweight battery
- Weight: 129g
- Fits Exceed, Trail Speed, Cross Trail & LR-series
- Silva rectangular connection, enables use of any Silva Li-Ion battery post 2008
- 5-step battery indication
- Compatible with Velcro Strap, Headlamp Extension Kit, Headlamp Battery Charger and USB Charge Adapter
- Water resistant, meets the IPX5 requirements

HEADLAMP BATTERY 3.5AH (25.9WH)

Headlamp Battery 3.5Ah (25.9Wh) is a slim yet powerful battery. It is rechargeable via USB-C and can be attached to a bike frame, handlebar or similar with the Battery Velcro Strap (sold separately). It can also be attached to your headband using the Battery Holder 2.0/3.5. This battery fits headlamps in the series Exceed, Trail Speed and Cross Trail.

ART. NO. 37997

HEADLAMP BATTERY 2.0AH

- 2.0 Ah nimble and lightweight battery
- Weight: 101 g
- Fits Trail Speed & Cross Trail-series
- Silva rectangular connection - enables use on any headlamps post 2008
- 5-step battery indication
- Compatible with Velcro Strap, Headlamp Extension Kit, Headlamp Battery Charger & USB Charge Adapter
- Water resistant - meets the IPX5 requirements

HEADLAMP BATTERY 2.0AH (14.8WH)

Headlamp Battery 2.0Ah is an exceptionally compact rechargeable battery (2.0Ah/14.8Wh). This mini-size and water-resistant battery pack fits headlamps within the Trail Speed and Cross Trail series and is perfect when low weight is more important than long burn-time.

ART. NO. 38009

TRAIL RUNNER BATTERY 4.0AH (USB-C)

HEADLAMP BATTERY 4.0AH (14.8WH)

The Trail Runner Headlamp Battery 4.0Ah (14.8 Wh) is a lightweight rechargeable battery that fits the Trail Runner series. This water-resistant battery features USB-C charging and fits all Trail Runne Free headlamps and or other Trail Runner models with the rounded connection cable.

ART. NO. 38008

- 4.0Ah compact long-distance battery
- Weight: 102g
- Fits the Trail Runner series
- Silva round connection, enables use of any Trail Runner headlamp with the round connector post 2008
- 4-step battery indication
- Compatible with Trail Runner Extension Cable
- Water resistant - meets the IPX5 requirements
- USB-C charging

HYBRID BATTERY 1.25AH

HYBRID BATTERY 1.25AH (4.6WH)

The Hybrid Battery 1.25Ah (4.6Wh) is designed to be used in combination with the Hybrid Battery Case or with the integrated case in the Scout 3 headlamps. It is USB-C rechargeable, compact and the lightest rechargeable battery in the Silva battery range.

ART. NO. 38007

- 1.25Ah – ultra compact and flexible use
- Weight: 53g
- Same size as 3xAAA batteries
- Hybrid Technology
- Fits the Trail Runner series and the Scout 3-series
- Fits the Hybrid Battery Case (sold separately)
- Battery indication
- Water resistant, meets the IPX5 requirements
- USB-C charging

TRAIL RUNNER HYBRID BATTERY CASE

FREE BATTERY CASE 3XAAA

The Trail Runner Hybrid Battery Case can carry either the Silva rechargeable Hybrid Battery or 3xAAA batteries. The case has grip friendly surfaces and holds an integrated red rear safety light – adding extra visibility. The battery can be carried comfortably on the headband or, thanks to the extension cord, it can be kept warm in your pocket to save battery life.

ART. NO. 37841

- Fits Trail Runner headlamps
- Can carry either the Silva rechargeable Hybrid Battery or 3xAAA batteries
- Integrated red rear safety light
- USB-C charging

HELMET BRACKET CROSS TRAIL

HEADLAMP HELMET BRACKET CROSS

Helmet Bracket Cross Trail is custom made for your Cross Trail headlamp and enables you to use it on your helmet. The bracket is easily attached with pre-mounted adhesive tape and is designed not to affect the protective characteristics of the helmet. Fits all headlamps in the Cross Trail series.

ART. NO. 37683

- Fits all Cross Trail headlamps from Silva
- Adhesive tape included

HELMET BRACKET EXPLORE/MR

HEADLAMP HELMET BRACKET EXPLORE / MR

Helmet Bracket Explore is custom made for your Explore headlamp and enables you to use it on your helmet. The bracket is easily attached with pre-mounted adhesive tape and is designed not to affect the protective characteristics of the helmet. Fits all headlamps in the Explore series and MR-series.

ART. NO. 37564

HELMET BRACKET TRAIL SPEED

HEADLAMP HELMET BRACKET TRAIL

Helmet Bracket Trail Speed is custom made for your Trail Speed headlamp and enables you to use it on your helmet. The bracket is easily attached with pre-mounted adhesive tape and is designed not to affect the protective characteristics of the helmet. The bracket fits all headlamps in the Trail Speed series.

ART. NO. 37566

- Fits all Trail Speed headlamps from Silva
- Adhesive tape included

HELMET BRACKET EXCEED

HEADLAMP HELMET BRACKET EXCEED

Helmet Bracket Exceed is custom made for your Exceed headlamp and enables you to use it on your helmet. The bracket is easily attached with pre-mounted adhesive tape and is designed not to affect the protective characteristics of the helmet. Fits all headlamps in the Exceed series.

ART. NO. 37567

- Fits all Exceed headlamps from Silva

HEADLAMP BAR MOUNT TRAIL SPEED & CROSS TRAIL

HEADLAMP BAR MOUNT TRAIL SPEED

Bar mount for your Trail Speed or Cross Trail headlamp, it enables you to mount and use your headlamp as a bike light. The bar mount is designed to fit handlebars with a dimension between 25-32 mm. Fits all headlamps in the Trail Speed and Cross Trail series.

ART. NO. 37737

- Fits all Trail Speed & Cross Trail headlamps from Silva

HEADLAMP BAR MOUNT

HEADLAMP BAR MOUNT EXCEED

Headlamp Bar Mount is a robust and stable headlamp bar mount with an easy quick attachment for all multi-activity headlamps. The bar mount enables you to use your headlamp as a bike light and it is designed to fit handlebars with a dimension between 22-35 mm. Once the bracket is in place, the headlamp can easily slide in or out of the snap socket with just a click. Fits Exceed, Trail Speed, Cross Trail and LR series.

ART. NO. 38006

- Robust construction for steady and safe attachment
- Attached to handlebars with a dimension between 22-35 mm
- Compatible with the Exceed, Trail Speed, Cross Trail & LR series

HELMET BRACKET EXPLORE / MR

HELMET BRACKET EXPLORE / MR

This is an updated Helmet Bracket for Silva Explore and MR headlamp series. It is designed with several attachment points which makes it adapt to and fit most helmets. The bracket is easily attached with pre-mounted adhesive tape and it is designed not to affect the protective characteristics of the helmet. Once the bracket is in place, you can easily slide in and out the headlamp of the snap socket with just a click.

ART. NO. 38010

- Robust construction for steady and safe attachment
- Attached to helmet using 3M adhesive stickers (included)
- Fits most helmets
- Compatible with the Explore & MR series

BATTERY HOLDER 2.0/3.5

HEADLAMP BATTERY HOLDER 2.0/3.5

The Battery Holder 2.0/3.5 keeps the battery in place and improves the comfort when you want to carry the battery on your head. You simply just slide in the battery and it stays in place.

ART. NO. 38077

- Robust construction for steady and safe attachment
- Simple and flexible to use
- Compatible with Exceed, Trail Speed, Cross Trail and LR
- Custom made for Headlamp Battery 2.0Ah & Headlamp Battery 3.5Ah

BATTERY HOLDER 7.0

HEADLAMP BATTERY HOLDER 7.0A

The Battery Holder 7.0 keeps the battery in place and improves the comfort when you want to carry the battery on your head. You simply just slide in the battery and it stays in place.

ART. NO. 38078

- Robust construction for steady and safe attachment
- Simple and flexible to use
- Attach it to the headband
- Compatible with Exceed, Trail Speed, Cross Trail series as well as LR2000 RC, LR1200 RC & LR600RC
- Custom made for Headlamp Battery 7.0Ah

BATTERY VELCRO STRAP

- Velcro closing function
- Attach to bike frame or handlebars
- Fits all rechargeable battery packs from Silva

HEADLAMP BATTERY VELCRO STRA

The Battery Velcro Strap can be used to safely mount or attach Silva battery packs to your bike frame, the handlebar, your headband, or wherever you find it suitable to have the headlamp battery pack. The Velcro strap is compatible with all Silva rechargeable battery packs and all battery cases.

ART. NO. 38079

HEADLAMP BATTERY CHARGER

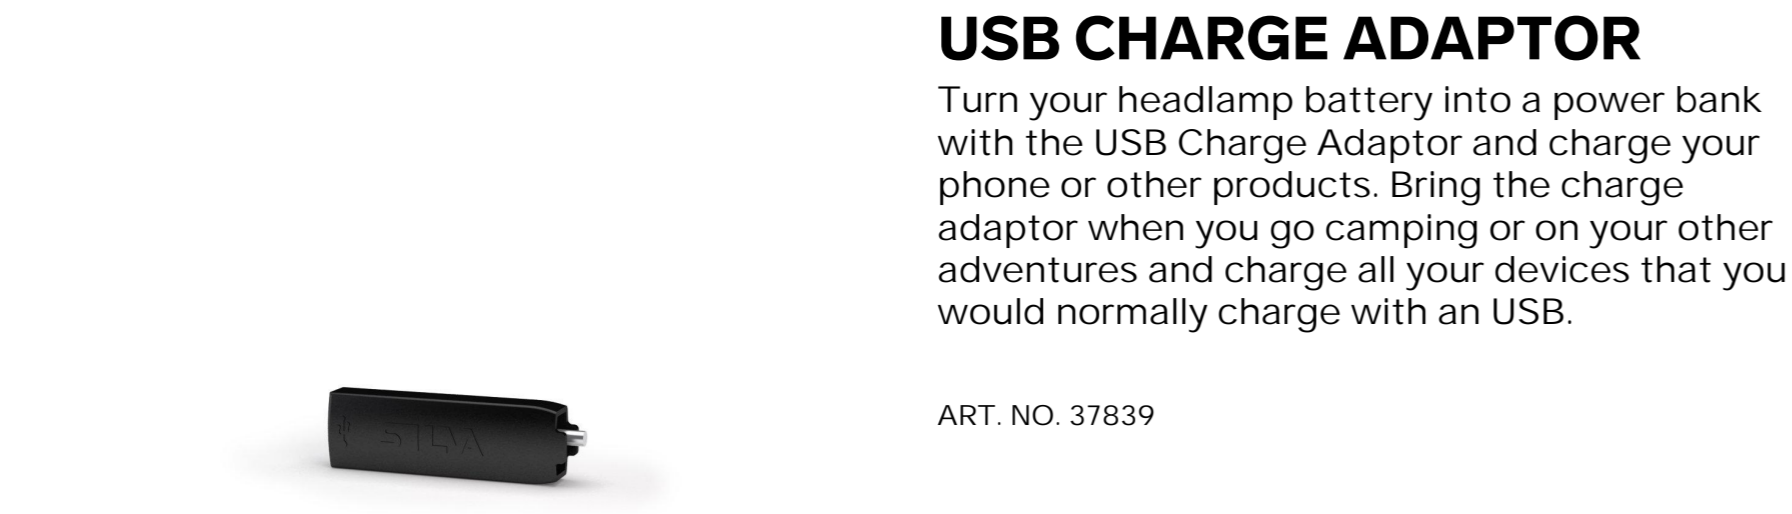

CHARGER LI-ION

Charger for Silva Li-Ion batteries with the rectangular connector. Fits headlamp batteries in the Trail Speed, Exceed, Cross Trail and LR-Series. Up to 4 times faster charging in comparison to a standard USB charger.

ART. NO. 37430

USB CHARGE ADAPTOR

USB CHARGE ADAPTOR

Turn your headlamp battery into a power bank with the USB Charge Adaptor and charge your phone or other products. Bring the charge adaptor when you go camping or on your other adventures and charge all your devices that you would normally charge with an USB.

ART. NO. 37839

- Compatible with the headlamp batteries in the Exceed-, Cross Trail-, Trail Speed and LR series
- Input: Silva rectangular connection – works with Silva batteries from 2008 and onwards
- Output: USB (Max current: ~2A)
- Low weight – don't carry unnecessary weight with this product

HEADLAMP EXTENSION KIT

HEADLAMP EXTENSION KIT

The Headlamp Extension Kit includes an extension cable, a rear cable guide and adhesive tape. By connecting the headlamp battery with the extension cable, you can place the battery safely in your pocket or a backpack. Attach the cable guides and the rear cable guide to the headband and these helps keeping the headlamp cable in place. Fits headlamp with Silva rectangular connector, among them the Exceed, Trail Speed and Cross Trail series.

ART. NO. 38075

- Simple and flexible attachment to headband or helmet
- Enable placement of the battery in a pocket, backpack, etc.
- Silva Rectangular Connection System, enables use of any Silva Li-Ion battery post 2008
- Fits the Exceed, Trail Speed, Cross Trail and LR-series
- Water resistant, meets the IPX5 requirements

TRAIL RUNNER EXTENSION CABLE

TRAIL RUNNER FREE EXTENSION CA

Trail Runner Extension Cable is a great companion to your Trail Runner headlamp. Having an extension cable enables you to keep the battery in your pocket instead of your headband. Fits the Trail Runner series along with the Hybrid battery case (purchased separately).

ART. NO. 37873
